

SEA SHELL CONTOUR COLLABORATIONS

Friday, May 18th (5:30-6:30pm)

What more fun than searching for sea shells? Drawing them together! Looking at the lines that make up an object and then drawing what you see, that is what contour is all about! These drawings will then be glued down and the family will do a watercolor wash on top! You'll need a frame for this one!

FOOTPRINTS ON THE BEACH

Friday, June 15th (5:30-6:30pm)

Each family member will create a series of foot prints and these will then be creatively collaged to a collaborative background beach scene! Sand will even be added to this fun family art work!

FAMILY FLAGS... CELEBRATING THE US IN THE USA

Friday, July 13th (5:30-6:30pm)

Family members will make the stars and the stripes for their creative collaborative flag. Several stars will be done with finger prints, so these memories from the summer of 2018 will last a lifetime!
